

Mehul Garg

Senior Software Engineer

Noida, Uttar Pradesh | Open to Relocation | +91-7983616465 | mehul.garg104@gmail.com | <https://mehulgarg.netlify.app>
LinkedIn | LeetCode | GitHub

SKILLS

Programming Languages: C, C++, JavaScript (ES6+), TypeScript.

Frontend: HTML, CSS, React.js, Redux, Zustand, Context API, Tailwind CSS, Material UI, React Bootstrap, Ant Design.

Backend: Node.js, REST APIs, JWT Authentication, Role-Based Access Control.

Cloud / AWS: Lambda, S3, API Gateway, SNS, Step Functions, Amplify, Cognito, IAM, CloudWatch, CloudFront, Bedrock.

Developer Tools: Git, GitHub, Bitbucket, AWS CodeCommit, Postman, Netlify, Webpack, npm.

Databases: MySQL, DynamoDB.

WORK EXPERIENCE

Tata Consultancy Services, Senior Software Engineer 09/2022 – Present | Noida, Uttar Pradesh

- Designed and built a full-stack, serverless Pricing Engine end-to-end using React.js, AWS Lambda microservices, API Gateway, and DynamoDB, coordinating with business analysts to translate requirements into event-driven financial models, automating **70%** of previously manual pricing workflows, and centralised logging via AWS CloudWatch.
- Led frontend architecture across **7 enterprise applications** using React.js, TypeScript, Zustand, and Context API, building reusable component libraries, standardising state management patterns, and defining typed API contracts. For Cloud Content and Information Management (CCIM) on AWS, built a scalable frontend codebase and enabled secure delivery through CloudFront, contributing to the **product's recognition** as a **TCS Intellectual Property (IP) asset** and **AWS Marketplace** listing after security and compliance validation.
- Developed AI-enabled user experiences using React.js, TypeScript, REST APIs, AWS Bedrock, and Amazon Q, implementing secure file-processing and S3 pre-signed URL ingestion workflows for dynamic PDF insight generation, reducing manual support traffic by **60%** and upload failures by **40%**.
- Implemented a centralised RBAC-based authentication and authorisation system using AWS Cognito and Amplify across multiple applications, reducing access-control-related production defects by **90%**.

Airtel Digital, Software Development Engineer Intern 09/2021 – 03/2022 | Gurugram, India

- Engineered the "Single Service Admin Portal" using React.js, Redux, and TypeScript, enabling live UI modifications without code changes, and collaborated with Airtel X Labs on reusable components across B2B and B2C portals.
- Architected a "no-code" content management solution with a dynamic "Template Schema" engine for configurable nested layouts (Pages > Groups > Cards) via JSON, reducing deployment time from **14 days** to **real-time** and eliminating developer dependency for UI updates.

PROJECTS

CloudX Suite 04/2025 – 05/2025

- Built a full-stack credit card analytics and blogging platform using React.js, Node.js-based AWS Lambda functions, DynamoDB, Amazon S3, and API Gateway, with role-based dashboards for Admin, User, and Guest access secured through AWS Cognito JWT authentication and RBAC.
- Engineered an event-driven user signup workflow using AWS Step Functions and SNS, triggered via Cognito PostConfirmation, and implemented secure profile image uploads using S3 pre-signed URLs with file type and size validation.
- Developed a credit card comparison engine with sortable analytics across 9 platforms, along with an admin CRUD panel, dynamic forms, and a blog module featuring community feed, search, and pagination.
- Built responsive, role-specific UIs with custom CSS and session management, including auto-logout on token expiry, and added backend input validation with email sanitization across Lambda functions.

EDUCATION

Hemvati Nandan Bahuguna Garhwal University (A Central University), 2018 – 2022 | CGPA: 7.98/10
Bachelor of Technology, Information Technology

L.T.R Public School, 12th (Senior Secondary Examination), CBSE 2018 | 84%

Meerut Public School, 10th (Secondary Examination), CBSE 2016 | CGPA: 10/10

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- AWS Certified AI Practitioner
